Moore receives named professorship

David Moore, MD, has been named the Mary Fendrich Hulman Professor of

Gynecologic Oncology. His appointment was approved Feb. 1 by the IU trustees.

Dr. Moore, an IUSM graduate, joined the IUSM faculty in 1993. He completed his residency in obstetrics and gynecology at IUSM and completed a fellowship in gynecologic oncology at the University of North Carolina at Chapel Hill. He is chief of gynecologic oncology at IUSM.

The Mary Fendrich Hulman Chair was established in 1990 by Mari Hulman George in honor of her mother. George has identified health care as a field of special philanthropic interest. The holder of the professorship should teach in or be engaged in research areas associated with gynecologic oncology.

Open house to celebrate 20 years of lithotripsy

A media opportunity and open house are planned for Monday, Feb. 23, to celebrate the 20th anniversary of the arrival of the first lithotripter in Indiana. It was installed at Methodist Hospital and was used to perform the first kidney stone lithotripsy treatment in the United States.

James Lingeman, MD, performed the procedure and continues to be a leader in the field of kidney stone treatment. He and IUSM researchers including, Department of Anatomy and Cell Biology faculty Andrew Evan, PhD, James McAteer, PhD, and James Williams, PhD; and Lynn Willis, PhD, professor of pharmacology and of medicine, are national known for their research in the field. Dr. Lingeman is a volunteer clinical professor of urology at IUSM.

Monday's event begins at 10:30 a.m. at the Palm Tree Atrium at Methodist where those attending will tour where kidney stone patients are treated. A laparoscopic procedure for kidney stone treatment will be performed. The tour will then travel to the IUSM campus to Dr. Evan's laboratory in room

5055 of Van Nuys Medical Sciences Building for a look at the research making lithotripsy a safer, more effective treatment.

Special guests at the open house will be Brock Faulkner from Dornier MedTech America Inc., and Bernd Forssmann, a German physicist who was one of the developers of the first clinical lithotripter, the Dornier HM3.

Wishard art on exhibit at Indiana Historical Society

In 1914, a group of renowned Hoosier artists came together for the benefit of patients at Wishard Memorial Hospital (then known as City Hospital), Indiana's largest public hospital. The prominent artists painted murals – more than a quarter mile of them – and other works that would not only decorate the new building but, more central to their artistic ambitions, lift spirits.

Ninety years later, the Indiana Historical Society and Wishard Memorial Hospital have collaborated to open “The Art of Healing,” an exhibit featuring many of the original murals. The display will be open free to the public now through June 6 at the Indiana History Center, 450 W. Ohio Street. This marks the first time the general public will be able to view this historic artwork.

The mural project, originally funded by St. Margaret's Hospital Guild, involved many leading Hoosier artists of the time, including William Forsyth, Wayman Adams, Otto Starke, Carl Graf, William Edouard Scott and among others, J. Ottis Adams and T.C. Steele. Forsyth, who served as project supervisor, regarded it as “the most ambitious and monumental work yet undertaken by Indianapolis artists.”

Many of the artists moved into quarters provided at the hospital during the

duration of the project. Supported by the idealism of their shared venture and their artistic camaraderie, all, even the most famous, agreed to work for \$75 to \$100 a month, the going wage for union house painters. In total, more than 33 murals (with many subdivided parts) were completed and more than 20 paintings were donated.

“The Art of Healing” is open free to the public Tuesday through Saturday, 10 a.m. to 5 p.m., and Sunday, noon to 5 p.m.

Nominations sought for Trustee Teaching Awards

The IUSM Office of Medical Education and Curricular Affairs seeks nominations for the Trustee Teaching Awards.

Students, residents, fellows, faculty, center directors, vice-chairs of education, clerkship directors, residency program directors, and department chairs are encouraged to nominate faculty members they regard as excellent teachers for this award. Self-nominations are also encouraged. The names of nominees should be e-mailed to meca@iupui.edu by **Monday, Feb. 23**.

Tenured and tenure-track faculty and librarians engaged in teaching are eligible as are full-time clinical faculty and full-time lecturers whose primary duties are teaching. The TTA honors individuals who have a positive impact on learning through the direct teaching of students. Award recipients must have demonstrated a sustained level of teaching excellence in the form of documented student learning and must have completed at least three years of service at IUPUI to be eligible (thus, faculty in their third year at IUPUI at the time the selection is being made would not be eligible).

Each award will be \$2,500. Recipients of the award will be notified by April 9. Those selected will be honored at the IUSM Commencement (where the

awards will be presented) and the Spring Faculty Meeting. In addition, TTA recipients will be recognized at the annual campus Chancellor's Honors Convocation in April and listed on the IUSM website. Recipients also will receive a certificate and their names displayed on a plaque hung in the Ruth Lilly Medical Library.

Additional information and guidelines for nominations can be found at <http://meca.iusm.iu.edu/>.

Promotion and Tenure Workshops for IUSM faculty

Two informational workshops are being offered to the IUSM faculty on promotion and tenure strategies and tactics.

The workshops will be:

- March 1 – 5 p.m. to 6 p.m. (Hurty Hall C)
- March 15 – 7:30 a.m. to 8:30 a.m. (Fesler Hall 319)

Sample dossiers will be available for review, as well as other helpful information.

Faculty interested in attending one of the workshops need to make reservations no later than five days prior to the session by calling 274-7108. Seating is limited to 30 attendees for the March 15 workshop.

Promotion and Tenure Workshop for women faculty

Women faculty are invited to a Promotion and Tenure Workshop brown bag lunch from noon to 1 p.m. March 29 in Fesler Hall 319.

The informational workshop will discuss promotion and tenure strategies and will provide a brief overview of the university process, the organization of the dossier, and how to approach the personal statement. Sample dossiers will be available for review.

Seating is limited to 30 attendees. Call 274-7108 to make reservation no later than **Wednesday, March 24**.

Clarian’s President’s Values Award winners

Joseph Fitzgerald, MD, professor of pediatrics and director of the Pediatric Division of Gastroenterology/Hepatology/Nutrition, has received a President's Values Leadership Award from Clarian Health Partners.

The award recognizes physicians, nurses and staff who promoted Clarian's mission of improving the health of patients and the community through innovation and excellence in care, education, research and service. The Leadership Award is presented annually to individuals or groups who integrate Clarian's values into their work lives.

Nominations are sought from within the Clarian system for four categories: medical staff, nursing staff, professional staff and support/service staff.

Other recipients were Nursing Staff: Cindy DeBord, RN, a clinical educator for Methodist Pediatrics; Professional Staff: Riley Child Life Bereavement Team (Melissa Williams, Jennifer Davis, Shondra McDole and Kim Rodibaugh); and Support Staff: Terry Jo Curtis, scheduling coordinator at the Methodist maternity center.

Each award recipient (individual or group recipient) receives a \$3,000 award to further his or her development as a values leader. The award can be used in a variety of ways: continuing education reimbursement, developmental programs for the work team, book or resource reimbursement used by the team, or the recipient can choose to donate the award to their favorite charity.

Applicants needed for 2004 Summer Research Program

The IU Cancer Center is accepting applications for a summer internship for

high school and undergraduate students pursuing biomedical or behavioral science careers.

The IU Cancer Center Summer Research Program provides a hands-on research opportunity for students to work with a mentor for nine weeks during the summer. Mentors are IU faculty affiliated with the Cancer Center. Participant selection is based on interest in biomedical or behavioral science, grades and personal interviews.

High school students applying must have completed at least their junior year and maintained a grade point average of at least 3.0. Undergraduates applying for the program must have completed 24 hours of college credit, be majoring in a biomedical or behavioral science, and have maintained a grade point average of 3.2.

Information about the program and applications are available through the center's Web site at <http://iucc.iu.edu/srp/>. The deadline for submitting applications is **Monday, March 1**. Applicants will be notified by April 1. The summer program runs June 7 through Aug. 6.

For additional information, contact Gwendolyn Johnson, Ph.D., program administrator, IU Cancer Center, at iuccsrp@iupui.edu.

Summer day camp discount offered

The IUPUI Sport Complex Summer Day Camp is entering its 18th year, offering kids 5-12 years of age a chance to explore many sports and activities, taught in a non-competitive, skill-oriented manner.

IUPUI faculty and staff are eligible for a \$25 discount coupon off the registration price for the IUPUI Sport Complex Summer Day Camp. This

offer also is extended to Clarian Health Partners employees. Those interested must register at the IU Natatorium Service Desk, 274-3518. The offer expires Feb. 29 and only one coupon per faculty/staff member is valid.

The coupon may be downloaded at www.iunat.iupui.edu/camps.

This week on *Sound Medicine*

Tune in at noon, Saturday, Feb. 21, to *Sound Medicine*, the weekly radio program co-produced by IUSM and WFYI Public Radio (90.1 FM) in Indianapolis. The program is hosted by Barb Lewis. This week's co-hosts are David Crabb, MD and Stephen Bogdewic, MD.

Guests include Leon Thacker, PhD, Purdue School of Veterinary Medicine, discussing avian flu; IUSM pulmonologist Aruna Sannuti, MD, will discuss new research and current trends in the management of cystic fibrosis. Advances in laparoscopic surgery will be the topic of IUSM surgeon Don Selzer, MD.

Archived editions of *Sound Medicine*, as well as other helpful health information, can be found at soundmedicine.iu.edu.

Submissions to Scope

Scope wants your news items.

The deadline for submission is 8:30 a.m. on Fridays. *Scope* is published electronically and sent to faculty, staff, students, and residents.

There are four easy ways to submit story ideas or information to *Scope*:

- fax the information to 278-8722
- e-mail the information to mhardin@iupui.edu
- mail the information to Mary Hardin, Z-7, Ste. 306, IUPUI
- paste your plain text message into *Scope* Web form on the IUSM faculty & staff page: <http://medicine.iu.edu/faculty>

Contributions submitted by e-mail should be forwarded in 12 point, plain text format.

To keep the electronic version of *Scope* as streamlined as possible, only seminars and lectures of general or multidisciplinary interest will be included.
