Handel resigns from Clarian, rejoins IU

David Handel, executive vice president and chief operating officer for Clarian Health, has resigned his position effective at the end of August. He then will join the IU School of Public and Environmental Affairs as director of the Masters in Health

Administration program.

Handel began his career on the IU Medical Center campus 19 years ago as director of hospitals and administrator at IU Hospital. In total, he's spent 36 years in health care administration.

"The Clarian Board of Directors and I took this opportunity to look at the strategic and organizational requirements for executive leadership at Clarian," said Dan Evans, president and CEO of Clarian Health Partners. "Central to our review is our continuing commitment to assure excellent operational leadership for all Clarian hospitals."

The board has agreed to the following changes in the structure of the hospital leadership:

- The creation of a new senior leader position of president and CEO for Riley Hospital to replace that of chief administrative officer. The board agrees that Riley should operate more independently while continuing to maintain its integration within Clarian's single hospital system. A search has begun to fill the position.
- A similar single executive position has been created to lead Methodist Hospital and IU Hospital. Sam Odle, senior vice president and COO at Clarian Health, has agreed to serve as president and CEO for Methodist and IU hospitals beginning Sept. 1.
- Responsibility for statewide partner hospitals, currently held by Handel, will be moved to the position of senior vice president for statewide operations. The individual who fills this position will also serve as the operational liaison for the Clarian West and Clarian North hospitals.

More information about the changes can be found this week in a special edition of *The Clarian*.

Wishard Telethon raises \$1.8 million

The third annual Wishard Telethon raised \$1,817,403 for patient care needs throughout the hospital, its seven community health centers and Midtown Community Mental Health Center. The telethon was broadcast on WTHR Channel 13 Tuesday, July 6. The tally incorporates funds raised by the telethon and by the Wishard Memorial Foundation throughout the past year.

The three-week campaign culminated with the telethon broadcast. Year-round fundraising efforts include special events such as school fundraisers, program-specific initiatives including those for the Pecar Community Health Center, Women's and Children's Services and Senior Care at Wishard, golf outings, St. Margaret's Hospital Guild contributions, corporate and foundation gifts as well as individual donations.

"While public health care systems struggle nationwide, it's gratifying to know that central Indiana values Wishard as much as they do and that people are willing to contribute to the cause of quality healthcare for those in need," said Lisa Harris, MD, medical director and chief executive officer, Wishard Health Services. "All of us at Wishard are extremely grateful for all of the financial contributions and the support of the community."

US News ranks six hospital programs

Six clinical programs at Clarian Health Partners - Methodist, Indiana University and Riley hospitals - ranked among the top 50 clinical programs according to the *U.S. News & World Report's* "2004 America's Best Hospitals Guide."

The programs that were ranked were cancer, digestive disorders, ear, nose and throat, kidney disease, orthopedics and urology

The rankings are reported in the July 12 issue of *U.S. News*. The rankings also can be viewed by visiting USNews.com.

The programs and their numerical rankings are:

- Digestive Disorders 12th
- Urology 15th
- Cancer 27th
- Orthopedics 37th
- Kidney Disease 38th
- Ear, Nose and Throat 44th

The rankings are developed by surveys of a geographical cross-section of 150 board-certified specialists in each of 17 specialties. Hospital rankings are based on criteria related to reputation, mortality rates, and other areas such as advanced technology capabilities and nursing care.

In addition, hospitals must meet one of three requirements for eligibility for ranking: affiliation with a medical school, membership in the Counsel of Teaching Hospitals or having a minimum of nine of the 17 key technologies available.

Proteomics open house – July 15

An open house for the IUSM proteomics core will be from 11 a.m. to 2 p.m. Thursday, July 15, at their new offices in the IU Emerging Technologies Center. The core now is the Protein Analysis Research Center (PARC) and is part of the Indiana Center for Applied Protein Sciences (INCAPS).

IUSM faculty, staff and students are invited to visit the center at 315 W. 10th St. to see the proteomics center's expanded facilities and capabilities and discuss available services and fees, said Mu Wang, PhD, director of PARC. The center will provide services to academic customers.

Researchers also will be able to discuss their future needs for proteomics technologies with INCAPS officials, including James Ludwig, PhD, chief executive officer.

Visitors will be able to grab a lunchtime hamburger or hot dog grilled by INCAPS Chief Business Officer Carl Bruhn.

For more information on the center, see www.indianacaps.com. For more information on PARC services, contact Dr. Wang at 274-1446 or mwang@indianacaps.com.

First Bridges students welcomed

The first Bridges to the Doctorate seminar will be 4 p.m. to 5 p.m. Tuesday, July 13, in room 326, Van Nuys Medical Science Building. Sarah England, PhD, associate professor, Department of Physiology, University of Iowa, will present “Regulation of Potassium Channels in Myometrium During Pregnancy.”

A reception to allow Bridges to the Doctorate students to meet graduate faculty and basic science staff will be 10:30 a.m. to noon, Wednesday, July 14, in the atrium of the Medical Science Building. A brief welcoming ceremony and will be at 11 a.m.

The Bridges to the Doctorate program is funded through a National Institutes of Health. The grant partners the IUSM basic science departments with an historically-black institution, Jackson State University in Jackson, Miss.

The goal of the grant is to increase the number of underrepresented ethnic minorities on the faculty at medical schools across the country.

The students complete master’s degrees at Jackson State University and continue their master’s thesis research summers at IUSM. The students are encouraged to apply and enter the IUSM graduate school when their master’s degree is completed.

After one year, two students from the program are matriculating into the IU graduate program (Department of Microbiology and Immunology) this fall.

The grant planning and initiative was envisioned by the IUPUI Graduate Office. Hal Broxmeyer, PhD, chair of microbiology and immunology, is the principal investigator and David Wilkes, MD, professor of medicine and of microbiology and immunology, is co-pi. Gwendolyn Johnson, PhD, IUPUI Graduate Office, serves as the coordinator at IU, and Joseph Cameron, PhD, Jackson State University, is the JSU coordinator.

Vogelweid farewell reception – July 15

A farewell reception for Catherine Vogelweid, PhD, DVM, associate professor of clinical pathology and laboratory medicine, is 3 p.m. to 5 p.m. Thursday, July 15, in the Morris H. Mills Atrium of the VanNuys Medical Science Building.

Dr. Vogelweid joined the IUSM faculty as an assistant professor in the Department of Pathology and Laboratory Medicine in 1991. She was named director of the Laboratory Animal Resource Center in 1993.

She has a doctorate in pathology and laboratory animal medicine and a DVM from the University of Missouri, Columbia.

[BACK TO TOP](#)

LARC director search begins

IUSM seeks an outstanding veterinarian to serve as director of its expanding animal resources program. Candidates must have a DVM or VMD from an accredited school of veterinary medicine and be licensed in the United States. Certification by ACLAM is strongly desired.

Thorough knowledge of all federal, state, and regulatory requirements is required. At least five years of administrative, financial and human resources management experience is desired; excellent management, oral and written communication and interpersonal skills are required.

Applicants should include a cover letter with their vision of an optimally-functioning laboratory animal resource center and explain how it could be developed and managed. The letter, curriculum vitae and names of references or letters of recommendation should be sent to Rose Fife, MD, Search and Screen Committee, Fesler Hall 318, 1120 South Drive, Indianapolis, Indiana 46202-5114. Applications

will be reviewed as received.

Indiana University is an AA/EOE, M/F/D. See www.medicine.iu.edu/home.html for more information on IUSM.

FEED your brain at faculty development workshop

“The Basics of Evaluating Learners,” a Faculty Enrichment and Education Development Series (FEED) workshop will be 5 p.m. to 7 p.m. Wednesday, July 28, in the Riley Outpatient Center auditorium. The seminar, hosted by the IU Department of Medicine, provides two hours of Category 1 CME credit.

The Department of Medicine provides the highest quality learning environment for medical students, residents and fellows. To that end, FEED now is offered quarterly and will cover key topics in clinical teaching. The workshops will provide an opportunity for the department faculty to improve their teaching skills in a collegial and fun environment.

A key responsibility in the IUSM academic mission is to educate others in the medical profession. This requires a set of skills to understand and evaluate the performance of our learners recognizing their competence level. Evaluating doctors in training require specific attention to the multiple tasks and behaviors from basic knowledge and skills to attitudes and values.

This workshop will provide guidelines to evaluate learners and to recognizing levels of competence based on the “gold standard” criteria of what IUSM expects. It will also provide an opportunity to reflect on ways to improve the accuracy of evaluations.

At the conclusion of this program, participants should be able to describe and utilize the basic principles of learner evaluation, incorporate the ACGME core competencies into learner evaluation and improve the accuracy and specificity of learner evaluations.

To register, contact Kathie Mullins at kmullins@iupui.edu, or 656-4275. No fee is charged for Department of Medicine faculty, but a \$25 fee is assessed other faculty.

Medical Alumni Association seeks nominations

The IUSM Alumni Association seeks nominations for seven position on the Medical Alumni Council. The positions are vacated by recently lapsed terms.

Service on the Medical Alumni Council is a four-year term. The Council meets three times a year. Special consideration is given to alumni from medical education centers located throughout the state. For additional information or to submit a nomination, contact Jon Barada at 274-1345, or jbarada@iupui.edu.

The Medical Alumni Council develops creative programming for its main constituency, the alumni, but also seeks to strengthen relationships with students, faculty and administrative staff. The Council seeks to mutually share and promote the objectives of the School of Medicine; to be recognized as a leader in education, clinical care and research.

The IUSM Medicine Alumni Council celebrates a long tradition of excellence. Continued development of the School's culture, values, and identity through the Alumni Association will play an increasingly important role.

For more information, see www.iupui.edu/~alumrels/medicine/.

Carol D. Nathan Scholarship

IUPUI staff needing assistance to pay expenses and tuition not covered by fee courtesy may want to apply for a Carol D. Nathan Scholarship.

The IUPUI Staff Council awards Carol D. Nathan scholarships of \$500 (\$250 each semester) for the 2004-2005 academic year. To qualify, applicants must be a full-time IUPUI staff employee with at least two years of service, pursuing an associate, baccalaureate or graduate degree at IUPUI, and must have completed 12 credit hours at IUPUI with a minimum GPA of 3.0.

To apply, fill out the online application and submit a 100-word essay. The application and additional details can be found at www.iupui.edu/~scouncil, click the link Carol D. Nathan Staff Council Scholarship.

Applications also may be picked up at the Office of Student Scholarships, Cavanaugh Hall 103, or from Molly Martin in the Staff Council Office, Union Building, room 403, molmarti@iupui.edu, or 274-2215.

The application deadline is **Friday, July 30**.

Back Pack Attack is back

IUPUI's Back Pack Attack helps Indianapolis children who can't afford school supplies. Donations of supplies from faculty, staff and students are combined and distributed to students in several IPS schools in need of supplies.

The Back Pack Attack ends **Friday, Aug. 6**.

Donations of backpacks, erasers, rulers, crayons, art boxes, scissors, glue sticks, pencil sharpeners, ink pens, pencils and colored pencils, notebook paper and pocket folders can be deposited in specially marked bins across campus. Cash or check donations can be made to the Alumni Office at 274-8828. Checks should be made out to the IUAA (Indiana University Alumni Association) and can be dropped off at University Place, room 241 or placed in campus mail address to IP 241.

For a complete list of back to school supplies needed, see www.iupui.edu/~extaff/prom/backpack.htm. Questions may be emailed to Karen

Deery at kdeery@iupui.edu, or Marty Posch at mposch@iupui.edu.

Educational Research grant recipients

Recipients of the 2004-05 Educational Research and Development grants:

PI: Beat Raess, PhD

On-line Assessment Tool for Teaching, Evaluating and

Title: Remediation of Competencies VII and IX

PI: John Watkins, PhD

Integrated Assessment of Competencies via Objectively Structured

Title: Clinical Skills Experiences

PI: Joseph Near, PhD

Title: Integration of Competencies into Medical Pharmacology

PI: Rex Stith, PhD

Title: A Certificate Program for Volunteer Faculty Development

PI: Susan Hyatt-Ballinger, M.D.

Title: Training and Evaluating School of Medicine Admissions Committee
Members in the Assessment of Competencies of Medical School Applicants

LAMP fellows recognized

Fellows who completed the Leadership in Academic Medicine Program (LAMP) were presented certificates of recognition by Craig Brater, MD, IUSM dean.

The 2003-2004 LAMP graduates are:

Brian Foley, MD – Physical Medicine & Rehabilitation

Antoinette Laskey, MD – Pediatrics

Paris Roach, MD – Medicine

Abigail Klemsz, MD, PhD – Pediatrics

Emmanuel Apostol, MD – Pediatrics

Eyas Hattab, MD – Pathology & Lab Medicine

Annette Douglas-Akinwande, MD – Radiology

Deborah Blue-Hnidy, MD – Pathology & Lab Medicine

Kathleen Bethin, MD, PhD – Pediatrics

Stephen Tan, MD – Dermatology

Gilber Liu, MD – Pediatrics

Anjan Batra, MD – Pediatrics

Raymond Johnson, MD, PhD – Medicine

Jennifer Schwartz, MD – Medicine

Hazem El-Gamal, MD – Dermatology

Shawn Teague, MD – Radiology

Gotz Von Bulow, PhD – Microbiology & Immunology

Erik Streib, MD Surgery

Joel Lim, MD – Pediatrics

W. Scott Goebel, MD, PhD – Pediatrics

Rebecca Ryder, MD – Pediatrics

Paul Haut, MD – Pediatrics

Mara Nitu, MD – Pediatrics

Susanne Ragg, MD, PhD – Pediatrics

Andrea Weist, MD – Pediatrics

The interactive program was lead by Stephen Bogdewic, PhD, Richard Frankel, PhD, and Lyn Means, MD, and consisted of nine half-day workshops. LAMP is designed for faculty in the first three years of their academic appointment and the participants were nominated by department chairs.

Academic development plans, establishing a mentoring relationship, negotiation, conflict resolution, promotion and tenure, life balance and time management were some of the subjects addressed.

For information about the 2004-2005 LAMP, contact Stephen Bogdewic, PhD, associate dean for faculty affairs and professional development, at 278-5461.

This week on *Sound Medicine*

Tune in at noon, Saturday, July 10, to *Sound Medicine*, the weekly radio program co-produced by IUSM and WFYI Public Radio (90.1 FM) in Indianapolis. The program is hosted by Barb Lewis. This week's co-hosts are Ora Pescovitz, MD, and Kathy Miller, MD.

Guests include Larry Bowers, PhD, senior managing director, Technical/Information Resources for the U.S. Anti-Doping Agency, who will discuss the surging trend of amateur athletes using performance-enhancing drugs and how the USADA is battling it.

Dempsey Arnold, a local actor, will talk about the twist of one of his acting roles –

that of a medical patient. In the role, he feigns all types of symptoms, conditions and diseases for medical students in a mock clinical setting.

David Nolte, PhD, professor of physics at the School of Science, Purdue University, will discuss his pioneering method of creating analog CDs that can function as inexpensive diagnostic tools for protein detection.

Archived editions of *Sound Medicine*, as well as other helpful health information, can be found at soundmedicine.iu.edu.

Online IUSM calendars

A comprehensive listing on IUSM seminars, lectures and Grand Rounds can be accessed at www.medlib.iupui.edu/calendar. To place items on the Scientific Calendar, please forward them to Iona Sewell at imsewell@iupui.edu.

A Special Events Calendar for presentations, symposiums, conferences and other activities at IUSM can be found on the School's Web page at www.medicine.iu.edu. The calendar also can be accessed directly at webdb.iu.edu/iusm/scripts/calendar/instr.cfm.

[BACK TO TOP](#)

Submissions to Scope

Scope wants your news items.

The deadline for submission is 8:30 a.m. on Fridays. *Scope* is published electronically and sent to faculty, staff, students, and residents.

There are three easy ways to submit story ideas or information to *Scope*:

- e-mail the information to mhardin@iupui.edu
- mail the information to Mary Hardin, Z-7, Ste. 306, IUPUI
- paste your plain text message into *Scope* Web form on the IUSM faculty & staff page: <http://medicine.iu.edu/faculty>

Contributions submitted by e-mail should be forwarded in 12 point, plain text format.

In the interest of accuracy, please do NOT use:

- acronyms
- abbreviations
- campus building codes (use full, proper name of building and include the room number)
- Dr. as a preface before names (designate MD or PhD)

To keep the electronic version of *Scope* as streamlined as possible, only seminars and lectures of general or multidisciplinary interest will be included.
