Jackson appointed radiology chair

Valerie Jackson, MD, has been named chair of the IU Department of Radiology. She has served as interim chair since January 2003.

She succeeds Mervyn Cohen, MB, ChB, MD, who resigned as chair in December 2002 after five years in the position.

Dr. Jackson is the John A. Campbell Professor of Radiology. She received her medical degree at IUSM in 1978 and also completed her internship and residency at IU. She joined the faculty in 1982 as a lecturer and became a full professor in 1990.

Dr. Jackson is the recent past president of the American College of Radiology.

The appointment creates two firsts at IUSM: she is the first female chair of the Department of Radiology and the School now has a brother and sister each serving as chair of a department. Dr. Jackson's brother, Robert Pascuzzi, MD, chairs the Department of Neurology.

[BACK TO TOP](#)

Andreoli holds named chair

Sharon Andreoli, MD, has been named the Bryon P. and Frances D. Hollett Professor of Pediatrics.

The chair was established in 2001 by the Riley Memorial Association (now known as the Riley Children's Foundation) in partnership with The Clowes Fund and the IU Department of Pediatrics. Byron Hollett was a 40-year member of the RMA Board of Governors and also a board member of The Clowes Fund. The position is to be held by a pediatric nephrologist.

Dr. Andreoli, who joined the IUSM faculty in 1984, is a professor of pediatrics. She completed her undergraduate, medical degree and residency at IU. Fellowships in nephrology were completed at IUSM and the University of Minnesota by Dr. Andreoli.

[BACK TO TOP](#)

Doebbeling holds health services research professorship

Bradley N. Doebbeling, MD, MSc, has been named the first Department of Medicine Professor of Health Services Research. He also will retain his current title of professor of medicine.

Dr. Doebbeling joined the IUSM faculty in 2003. In addition to his named position, he is director of Health Services Research at Regenstrief Institute and director of Health Services Research and Development at the Roudebush VA Medical Center.

He came to IUSM from the University of Iowa, where he was a professor of internal medicine and epidemiology. A graduate of the University of Colorado School of Medicine, Dr. Doebbeling completed a residency in internal medicine and fellowships in clinical epidemiology and infectious diseases at the University of Iowa

Downs named Bepko Scholar

Stephen Downs, MD, associate professor of pediatrics and director of Pediatric Health Service Research, has been named the first Jean and Jerry Bepko Scholar.

Jerry Bepko served as chancellor of IUPUI for 16 years. The Bepko Scholar was named to honor the Bepkos and to acknowledge their support of the university and the School of Medicine.

Dr. Downs has been a faculty member at Indiana University since 2001.

McMaster faculty to visit for competency curriculum crash course

On July 19 and 20, deans and faculty from McMaster University Faculty of Health Sciences in Hamilton, Ontario, will visit IUSM to learn about the development and management of the School's competency-based curriculum and tracking and documentation of student performance.

The McMaster guests will meet with faculty and students, competency directors and center representatives, the clinical skills center, staff and faculty from the office of Medical and Curricular Affairs, and the dean's office.

McMaster University is one of the first medical schools to use a problem-based learning

approach to teaching, and pioneered many of the teaching approaches used in other schools today.

Fifteen years ago, a delegation of faculty from the IUSM Northwest Center at Gary visited McMaster to learn about their innovative problem-based learning curriculum.

The following year, the Gary branch of the medical school joined Harvard, the University of New Mexico and a continually growing number of medical schools around the world in adopting the McMaster model of community-oriented, people-centered, interdisciplinary and problem-based learning.

Since then many of the Indiana's regional centers and the Indianapolis campus's Concept of Health and Disease Course adopted the McMaster PBL technique. Now IUSM is considered a pioneer, along with Brown University, in establishing a curriculum based on excellence in skills, values and attitudes toward medicine and patients, in addition to medical knowledge.

New graduation-level entrepreneurship course offered

A graduate-level course designed for science, engineering and medical entrepreneurial faculty, graduate students, post docs and upperclass undergraduates will begin in August.

This three-hour course is a practical, fast-paced primer on the dynamics of high-tech entrepreneurship. It is designed to give real-life insights into the creation of a successful and profitable advanced technology business and management of a flourishing, scientifically intensive career in the business world.

The curriculum will include three modules comprised of:

1. Lectures on the critical issues in creation of companies exhibiting rapid growth based on technological innovation, often flowing out of research started within the university environment.
2. Case studies: The course also will present six successful high-tech entrepreneurs whose companies and lives will serve as role models for the students. Some of these entrepreneurs have chosen to base their companies in Indiana.

3. Career planning, leadership and business plan reviews.

The course is limited to 40 students. It will be on Thursdays beginning at 5:45 p.m. and faculty will be Scott Jones, Jack Gill, Julie McGowan and Bob McDonald.

For additional information, see <http://medicine.iu.edu/academics/93ZB710.shtml>.

One minute Web survey

The IUSM Web team wants to hear from faculty, staff and students. How can the school's Web site better serve its audience?

The next time you visit the home page, please pause to take the one-minute (really!) survey. Or better yet, save several seconds and click on www.medicine.iu.edu/survey/.

Thank you for taking the time to help us help you.

Clinical trials seminar – July 23

Methods and requirements for creating, collecting and organizing source documents and case report forms in paper and electronic formats will be the topic of a July 23 seminar hosted by the Clinical Trials Program.

The seminar will be from noon to 1:30 p.m. at the Riley Outpatient Center lower level classrooms. Registration is at the door and 1.5 CMEs are offered.

Presenters will be Gail Douglas from the Clinical Trials Program and Mary Arnould from Bristol Myers Squibb.

Other education opportunities hosted by the program can be found at <http://medicine.iupui.edu/ctp/pdf/2004%20Research%20Education%20Programs.2.04.rtf>.

Juvenile justice system topic of Aug. 13 conference

The Sixth Annual Conference on Infant Mental Health, hosted by the Indiana Association for Infant and Toddler Mental Health, will be from 8:30 a.m. to 4:30 p.m. Friday, Aug. 13, in the Riley Outpatient Center conference center.

Healing the Child in Juvenile Court: Opportunities for Prevention and Early Intervention is the theme, which will be addressed by Joy Osofsky, PhD, president of Zero to Three and a psychology faculty member at Louisiana State University, Judge Cindy Lederman, presiding judge of juvenile court in Dade County, Fla., and keynote David Orentlicher, MD, JD, who has a joint appointment in the IU schools of law and medicine.

Registration is \$50. For more information, call 274-7159, or email atomlin@iupui.edu.

Scope publication schedule changes

Summer time and the living's easy... so *Scope* will adjust its weekly publication schedule. With fewer seminars and other events schedule during the summer, *Scope* will begin publishing on an as needed basis until classes resume in August.

Story submissions still can be emailed to mhardin@iupui.edu.

Honors

Omar Hamoui, MD, interventional cardiology staff at Krannert Institute of Cardiology, was voted June 9 by the cardiology fellows as the winner of the Charles Fisch Teacher of the Year Award, for dedication and excellence in teaching for 2003-2004.

David Hertz, MD, associate professor of pediatrics, was awarded the Edwin L. Gresham Award by the American Academy of Pediatrics, Indiana Chapter, in recognition of his outstanding contributions to the care of newborn infants.

Roberta Hibbard, MD, professor of pediatrics, has been appointed to the American Academy of Pediatrics National Committee on Child Abuse and Neglect. She will serve from 2004 to 2010.

James Klaunig, PhD, professor and director of toxicology in the Department of Pharmacology and Toxicology, has been elected to the Board of Directors of the Academy of Toxicological Sciences. His term is for three years. The Academy of Toxicological Sciences was founded in 1981 to evaluate and document competency in the for certification of toxicologists.

Patrick Loehrer Sr., MD, associate director for clinical research at the IU Cancer Center, received the first Exemplary Service Award from the Foundation for Thymic Cancer Research at a fundraiser in April. This award was present on behalf of all the thymic cancer patients as a symbol of their gratitude.

Joseph O'Neil, MD, assistant professor of clinical pediatrics in the Section of Developmental Pediatrics, received a Special Achievement Award for Distinguished Service from AAP District V for his efforts to successfully pass legislation to require booster seats for children between the ages of four to eight years.

Gov. Joe Kernan has appointed IU radiologist **Steven Willing**, MD, to the Indiana Stroke Prevention Task Force. His four-year term expires July 1, 2008.

***Sound Medicine* moves to new time slot Aug. 1**

Sound Medicine, the weekly radio program produced by IUSM and WFYI-FM 90.1 public radio, is moving to 4 p.m. Sundays beginning Aug. 1. It currently airs at noon on Saturdays on WFYI.

The program will be preceded by *Splendid Table*, a culinary program with a call-in component, and followed by *All Things Considered - Weekend Edition*, one of National Public Radio's most followed news programs. Both national programs have performed well in the Indianapolis area. *Splendid Table* attracts a large female audience; *Sound Medicine's* news-oriented content positions it well to lead into the ATC-WE news format.

The move is part of a reorganization of programming at WFYI to create greater

continuity of airtimes for national programs throughout the year and to broadcast programs at times when their primary audiences are more likely to be listening.

[BACK TO TOP](#)

This week on *Sound Medicine*

Tune in at noon, Saturday, July 24, to *Sound Medicine*, the weekly radio program co-produced by IUSM and WFYI Public Radio (90.1 FM) in Indianapolis. The program is hosted by Barb Lewis.

James Battey, MD, PhD, director of the National Institute on Deafness and Other Communication Disorders, and a patient family from Riley Hospital for Children will discuss the benefits of cochlear implants.

Archived editions of *Sound Medicine*, as well as other helpful health information, can be found at soundmedicine.iu.edu.

Online IUSM calendars

A comprehensive listing on IUSM seminars, lectures and Grand Rounds can be accessed at www.medlib.iupui.edu/calendar. To place items on the Scientific Calendar, please forward them to Iona Sewell at imsewell@iupui.edu.

A Special Events Calendar for presentations, symposiums, conferences and other activities at IUSM can be found on the School's Web page at www.medicine.iu.edu. The calendar also can be accessed directly at webdb.iu.edu/iusm/scripts/calendar/instr.cfm.

[BACK TO TOP](#)

Submissions to Scope

Scope wants your news items.

The deadline for submission is 8:30 a.m. on Fridays. *Scope* is published electronically and sent to faculty, staff, students, and residents.

There are three easy ways to submit story ideas or information to *Scope*:

- e-mail the information to mhardin@iupui.edu
- mail the information to Mary Hardin, Z-7, Ste. 306, IUPUI
- paste your plain text message into *Scope* Web form on the IUSM faculty & staff page: <http://medicine.iu.edu/faculty>

Contributions submitted by e-mail should be forwarded in 12 point, plain text format.

In the interest of accuracy, please do NOT use:

- acronyms
- abbreviations
- campus building codes (use full, proper name of building and include the room number)
- Dr. as a preface before names (designate MD or PhD)

To keep the electronic version of *Scope* as streamlined as possible, only seminars and lectures of general or multidisciplinary interest will be included.
