## **Marrero named Ritchey Professor**

David Marrero, PhD, has been named the J.O. Ritchey Professor of Medicine following action by the IU trustees Oct. 1.

Dr. Marrero joined the IUSM faculty in 1986. Currently he is a professor of medicine and director of the Diabetes Research and Training Center and the Translation Research Center.

The J.O. Ritchey Chair was established in 1992 by numerous donors, including former residents and friends of Dr. James O. Ritchey, to honor his memory and contributions to IUSM.

## **Purdue, IU medical school form joint life sciences research program**

A pilot program to promote biomedical research collaboration has been formed by the Indiana University School of Medicine and Purdue University.

The program will provide \$150,000 this fiscal year for grants to enable

researchers from the two universities to team up on work that is likely to spawn larger ongoing programs and attract outside funding.

Robert B. Jones, MD, PhD, executive associate dean for strategic planning, analysis and operations at IUSM, said the program will concentrate on a few focused areas within biomedical research.

“We hope the project serves as a catalyst for new interactions between the schools’ researchers,” Dr. Jones said. “Anything that can be done to increase biomedical research here makes sense for Indiana.”

Researchers who want to compete for the grants must prepare joint proposals and submit them to either Dr. Jones or Rutledge by 5 p.m. **Monday, Nov. 15**. The proposals must consist of up to five double-spaced pages with one-inch margins and a font size no smaller than 12 points. It should include a summary budget, endorsed by an appropriate official from the lead institution.

Up to three proposals will be funded after review by a joint committee of the two institutions. The awards will be announced in early December for a start date as early as Jan. 1.

---

## **State of the Campus Address Tuesday**

The IUPUI State of the Campus Address will be at 4 p.m. Tuesday, Oct. 5, in the University Place Conference Center auditorium.

This will be Chancellor Charles Bantz’s first official State of the Campus Address to the faculty, staff and students.

[BACK TO TOP](#)

## **Applicants sought for IU associate dean for clinical research**

IUSM is creating a centralized clinical research office to provide support for business services, marketing to enhance recruitment and the number of studies, coordinator services, and education to new and existing investigators and other study personnel.

Candidates for the position of associate dean for clinical research must be regarded as a leader in their own area of research, as well as in the design and conduct of clinical trials. Qualified individuals will have successfully competed for peer-reviewed grant funding at a national level (e.g. NIH, CDC, VA, and AHRQ) and successfully served as a principal investigator on multiple federal, commercial, or investigator-initiated clinical research projects.

A record of successful collaboration with peers in both academia and industry (in consultation on protocol development, for example) is necessary, as is a history of service on recognized scientific and research committees, associations, and boards, including experience as an IRB member.

More broadly, candidates for this position must have experience in budget development and contract review with multiple, diverse funding entities, as well as excellent grant writing skills. Qualified physicians will have a demonstrated ability to manage diverse groups and the skill to engage all levels and types of individuals, both internal and external to the School, in meaningful problem solving and collaboration.

Ideal candidates will have successfully mentored faculty and research associates in all aspects of the responsible conduct of research, as well as in procuring research funding. The associate dean for clinical research must have an excellent understanding of the federal, state and local regulations which govern the responsible conduct of clinical research, as well as the

demonstrated ability to translate those into reasonable operation procedures.

Candidates with an MD from an accredited medical school and licensure in the United States may be preferred; however, interested individuals with a PhD or other doctorate degree, and with the appropriate experience, are encouraged to apply. Clinical research certification by ACRP, SoCRA, or DIA is desirable; a minimum of five years of clinical research management experience is required.

Excellent management, problem-solving, oral and written communication, and interpersonal skills are required, as is a demonstrated ability to manage multiple clinical research projects, research coordinators, and related staff activities in an efficient, effective, and safe manner.

Information about the School can be found at [www.medicine.iu.edu/home.html](http://www.medicine.iu.edu/home.html). Address all nominations and applications to Anna Maria V. Storniolo, MD, Chair, Search and Screen Committee, Indiana University School of Medicine, 1120 South Drive, Fesler Hall 318, Indianapolis, Indiana 46202-5114.

Indiana University is an EEO/AA employer, M/F/D.

## **Applications sought for director, South Bend Center**

IUSM is seeking an outstanding and committed medical educator and administrator to serve as director of the South Bend Center for Medical Education and assistant dean of the School of Medicine, a tenure-track position at the level of professor or associate professor.

Located adjacent to the campus of Notre Dame in South Bend, the Center is one of eight which provides the first- and second-year medical curriculum as

part of the IU Statewide System of Medical Education.

Candidates must possess an MD and/or PhD, or the equivalent. A keen interest and expertise in medical student education and administration, commitment to scientific research, and an aptitude for community involvement are required.

Address all nominations and applications for this position to Gordon Coppoc, PhD, and David Burr, PhD, Chairs, Search and Screen Committee, Indiana University School of Medicine, 1120 South Drive, Fesler Hall 318, Indianapolis, Indiana 46202-5114.

See <http://galen.sbcme.nd.edu/> or [www.medicine.iu.edu/home.html](http://www.medicine.iu.edu/home.html) for more information.

Indiana University an EEO/AA employer, M/F/D.

## **Applicants sought for LARC director**

IUSM seeks an outstanding veterinarian to serve as director of its expanding animal resources program.

Candidates must have a D.V.M. or V.M.D. from an accredited school of veterinary medicine and be licensed in the United States. Certification by ACLAM is strongly desired. Thorough knowledge of all federal, state and regulatory requirements is required. At least five years of administrative, financial and human resources management experience is desired. Excellent management, oral and written communication, and interpersonal skills are required.

To apply, describe in a cover letter your vision of an optimally functioning

laboratory animal resource center and explain how you would build and manage it. Send it, with your curriculum vitae and the names of references or letters of recommendation, to Rose S. Fife, MD, Search and Screen Committee, Fesler Hall 318, 1120 South Drive, Indianapolis, Indiana 46202-5114.

Applications will be reviewed as received. Indiana University is an AA/EOE, M/F/D. <http://www.medicine.iu.edu/home.html>.

## **Beering Lecture – Oct. 20**

Stanley Korsmeyer, MD, will present the 2004 Stephen C. Beering Lecture at 8:30 a.m. Wednesday, Oct. 20, in the University Place Conference Center auditorium.

Dr. Korsmeyer is the Sidney Farber Professor of Pathology and professor of medicine at the Dana-Farber Cancer Institute. A Howard Hughes Medical Institute investigator at Harvard Medical School, he is best known for his pioneering work on the regulation of apoptosis, also known as programmed cell death. He has identified the key genetic mechanisms that govern cell death and survival and defined the role of cell death in the pathogenesis of human diseases, including lymphomas and other cancers.

Since apoptosis is critical for normal cell development, Dr. Korsmeyer's research has increased the understanding of organ development, cellular homeostasis and the genetics and treatment of human disease.

Dr. Korsmeyer received his medical degree from the Chicago College of Medicine at the University of Illinois. He completed his residency training at the University of California, San Francisco. He has been a faculty member of the Dana-Farber Cancer Institute since 1998.

## **Experts on global HIV/AIDS to gather in Indy Oct. 31**

What progress is being made to combat HIV and AIDS globally? That's the focus of the "HIV/AIDS Care in the Developing World: Lessons Learned and the Way Forward" conference, Sunday, Oct. 31, at Indianapolis' Downtown Marriott Hotel.

The conference, organized by IUSM, will convene some of the world's chief experts on the medical, ethical, political and economic issues related to HIV/AIDS.

Registration for both the public and health care professionals is possible through the IU School of Medicine Division of Continuing Medical Education at 317-274-8353 or 1-888-615-8013, or online at <http://cme.medicine.iu.edu/registration>.

For more information about the conference, go to [www.medicine.indiana.edu/news\\_releases/viewRelease.php4?art=199](http://www.medicine.indiana.edu/news_releases/viewRelease.php4?art=199).

## **IUSM figures well in Top Docs list**

The 2004 issue of *America's Top Doctors* includes 41 IUSM physicians. The issue recognizes 54 physicians practicing in Indiana, and of those, 75 percent practice or teach at the IU Medical Center.

*America's Top Doctors* is published by Castle Connolly Medical Ltd, and is a consumer guide to the nation's top specialists. The list of physicians is based on nominations by their peers, and the physicians listed are included only after extensive surveys have been conducted.

*America's Top Doctors* focuses only on the top 1 percent of specialists and sub-specialists across the United States. Less than 1 percent of the hospitals in the United States have more than one doctor listed in the guide.

IUSM physicians and their recognized specialty included in the 2004 issue:

**Sharon Andreoli** - Kidney Disease

**Jerry Bergstein** - Dialysis-Peritoneal; Kidney Disease; Hypertension

**John Brown** - Cardiac Surgery-Neonatal and Pediatric; Transplant-heart; Heart Valve Surgery

**Randall Caldwell** - Transplant Medicine-Heart; Echocardiography

**William Chernoff** - Facial Plastic/Reconstructive Surgery; Laser Surgery (volunteer clinical assistant professor/otolaryngology)

**John Coleman** - Cancer Reconstruction; Breast Reconstruction; Head and Neck Surgery

**Lawrence Einhorn** - Testicular Cancer; Lung Cancer

**Martin Farlow** - Alzheimer's Disease; Neurodegenerative Disorders; Multiple Sclerosis

**Robert Goulet Jr.** - Breast Cancer

**Jay Grosfeld** - Cancer Surgery

**Ronald Hamaker** - Head and Neck Cancer (volunteer clinical associate

professor/otolaryngology)

**Matthew Johnson** - Vascular Interventions; Uterine Fibroid Embolization

**Young-Jee Kim** – Asthma; Chronic Lung Disease; Ventilator Dependent Children

**John Kincaid** - Pain-Facial; Neuromuscular Disorders; Electromyography

**Martin Kleiman** - Pediatric Infectious Disease

**Paul Kwo** - Hepatitis C & B; Transplant Medicine - Liver

**James Lemons** - Neonatal-Perinatal Medicine

**Keith Lillimoe** - Pancreatic and Biliary Surgery; Colon Surgery

**Katherine Look** - Ovarian Cancer

**Thomas Luerssen** - Pediatric Neurosurgery

**Christopher McDougle** - Autism and Developmental Disorders; Obsessive-Compulsive Disorders; Tourette's Syndrome

**Douglas McKeag** - Primary Care Sports Medicine

**Alexander Mih** - Microsurgery

**Douglas K. Miller** - Frailty Syndrome; Dementia; Falls

**Richard Miyamoto** - Neuro-Otology; Acoustic Nerve Tumors; Middle Ear Disorders

**Jean Molleston** - Liver Disease; Nutrition

**David Moore** - Cervical Cancer; Ovarian Cancer

**John Mulcahy** - Erectile Dysfunction; Incontinence; Penile Prosthesis

**Robert Pascuzzi** - Neuromuscular Disorders; Amyotrophic Lateral Sclerosis; Myasthenia Gravis

**Douglas Rex** - Endoscopy; Endoscopic Ultrasound

**Richard Rink** - Pediatric Urology; Reconstructive Urologic Surgery; Genital Reconstruction

**Karen Roos** - Infectious Diseases-CNS; Encephalitis

**K. Donald Shelbourne** - Knee Surgery; Arthroscopic Surgery (volunteer clinical associate professor/orthopaedic surgery)

**George Sledge Jr.** - Breast Cancer

**Frederick Stehman** - Clinical Trials; Gynecologic Cancer

**Rosa Maria Ten** - Immune Deficiency; Asthma

**Patricia Treadwell** - Pediatric Dermatology; Vascular Birthmarks

**Mark Turrentine** - Cardiac Surgery-Pediatric; Transplant-Heart; Transplant-Lung

**Elisabeth von der Lohe** - Heart Disease in Women; Interventional Cardiology

**David D. Weaver** - Inherited Bone Disorders; Genetic & Inherited Disorders; Prenatal Diagnosis

**Douglas Zipes** - Arrhythmias

## **OHRP leaders to discuss human subject research at IUPUI**

Bernard Schwetz, DVM, PhD, the new director of the Office of Human Research Protection (OHRP) and George Pospisil of the Division of Education and Development, OHRP, will speak to clinical researchers and their support staff at IUPUI from 2:30 p.m. to 4 p.m. Tuesday, Oct. 19. The presentations regarding the federal perspective on human subjects research and its oversight, will be in the Riley Outpatient Clinic auditorium.

For additional information, contact Pam DeWeese, administrative director, Clinical Trials Program, 278-2865, or [pdeweese@iupui.edu](mailto:pdeweese@iupui.edu).

[BACK TO TOP](#)

## **McDonald-Merrill-Ketcham Lecture – Oct. 6**

"Beyond Tort Reform: Fixing Real Problems" is the title of the 2004 McDonald Merrill Ketcham Lecture by Randall Bovbjerg, JD, Wednesday, Oct. 6, in Inlow Hall, IU School of Law-Indianapolis. The lecture, award ceremony and luncheon will be from 11:30 a.m. to 1:30 p.m.

Bovbjerg also will present internal medicine grand rounds from 8:30 a.m. to

9:30 a.m. in Myers Auditorium at Wishard Hospital. His topic will be “Malpractice: Physicians Versus Lawyers and the Public Interest.”

Bovbjerg is a principal research associate at the Urban Institute in Washington, D.C. He has 30 years experience in public and private insurance, medical injury, liability and patient safety; state and local health policy; safety-net issues and state regulation.

The McDonald Merrill Ketcham Award and Lecture, endowed by IU alumna Dorothy Ketcham in honor of her grandparents, is presented annually by a leader who has bridged the gap between law and medicine.

Reservations for both events are requested and can be made to Carolyn Key at [cakey@iupui.edu](mailto:cakey@iupui.edu).

## **Educational opportunities for clinical researchers, staff**

The Clinical Trials Program is offering the following programs in October:

**Oct. 8** – “Industry-Sponsored Research Budgets and Contracts: Your Need-To-Know Guide to Success,” noon to 1:30 p.m., Tudor Auditorium - Wishard Outpatient Wing 5th floor, free of charge. To register for the class and its 1.5 hours of CME, contact Michelle Murray at [mimurray@iupui.edu](mailto:mimurray@iupui.edu) , or 278-2868.

Presenters will be Sharon Moe, MD and Pam DeWeese, administrative director, Clinical Trials Program.

**Oct. 18** – Grant Writing Seminar, 8 a.m. to 5 p.m., Riley Outpatient Center conference rooms A & B, cost \$100. To register see, <https://www.iupui.edu/~cmeweb/05162/grantwriting.htm>.

Stephen Russell, DVM, PhD, from Grant Writers, Inc., will discuss how basic and clinical researchers can write for reviewers so that you can get funded

## **Mini Medical School begins Oct. 12**

The fall session of IUSM's Mini Medical School, a program for faculty, staff, students and the community, will be Oct. 12 through Nov. 16. The two-hour weekly sessions meet at 7 p.m. Tuesdays in the lower-level auditorium at the Riley Outpatient Center. The last session will meet at a location to be announced.

These session will provide participants with hands-on opportunities to learn about alternative medicine, advanced visual imaging tools, CPR and medical communication skills. For more information about the program, see [http://www.medicine.indiana.edu/news\\_releases/viewRelease.php4?art=161](http://www.medicine.indiana.edu/news_releases/viewRelease.php4?art=161).

Cost to attend the six-week series is \$40 per person and advanced registration is required. Parking is included. For information or to register, call 278-7600. When registering, refer to Course No. 042N01A00.

## **October Combined Seminar Series schedule**

The IU Cancer Center Combined Seminar Series meets from 4 p.m. to 5 p.m. Wednesdays in the IU Cancer Research Institute auditorium. October's speakers and their topics are:

**Oct. 6** – Mary Maluccio, MD, assistant professor, IU Department of Surgery. “The Renin-Angiotensin System in Hepatitis Associated Tumorigenesis”

**Oct. 13** – James R. (Rick) Ludwig, PhD, president and CEO, INCAPS, and director of the Proteomics Programs Eli Lilly and Company, “Proteomics Technology Validation – a Critical Component in Biomarker Discovery”

**Oct. 20** – Beering Award Lecture, no Combined Seminar lecture

**Oct. 27** – Hongmiao Sheng, MD, associate professor, IU Department of Surgery, “COX-2, PGE2, and Oncogenic Pathways”

## **IU Geriatrics Conferences for October**

Three IU Geriatrics Conferences are planned for October. Each session is from 7:30 a.m. to 8:30 a.m. in Wishard Memorial Hospital, room T2008 A and B:

- Oct. 6** “Nutrition and the Older Adult”  
Sara Blackburn, DSc, RD  
Assistant Professor of Clinical Nutrition  
Nutrition and Dietetics Program
- Oct. 13** “Erectile Dysfunction in the Elderly”  
Alex Arizmendi, MD  
Geriatric Medicine Fellow
- Oct. 20** “Depression in Primary Care of the Elderly”  
Jeanne Dickens, MD  
Associate Professor of Psychiatry

## **Bioethics Research Rounds for October**

Eric Meslin, PhD, director of the IU Center for Bioethics, will speak on “International Research Ethics: A Needs Assessment at Moi University and Indiana University” from noon to 1 p.m. Friday, Oct. 15.

The program will be in the IU Center for Bioethic’s conference room at 714 N. Senate Ave., room 200, on the second Friday of each month. This is a brown bag lecture series; beverages will be provided.

The series, hosted by the Center, is an opportunity for faculty to present and learn about bioethics research in progress.

## **IU Cancer Center Cancer Research Day – Nov. 3**

Indiana University Cancer Center's second annual Cancer Research Day will be from 10 a.m. to 5 p.m. Wednesday, Nov. 3.

A scientific poster session, town hall meeting and keynote address are among the day's scheduled events.

Abstracts are now being accepted for the poster session. The scientific poster session aims to increase understanding and awareness of IU Cancer Center research and encourage collaboration among students, fellows and faculty conducting cancer research. The session will be held in the VanNuys Medical Sciences Building Atrium from 10 a.m. to 3 p.m., with presenters in attendance from 11 a.m. to 1 p.m.

A town hall meeting will be held in room 101 of the IU Cancer Research Institute from 2:30 p.m. to 3:30 p.m. The meeting will provide an overview of the IU Cancer Center as well as an open forum for offering feedback to senior leaders and discussing opportunities for involvement and collaboration. All IUSM, IU School of Nursing and IUPUI School of Science faculty are encouraged to attend.

Cancer Research Day will conclude with a keynote address at the regularly scheduled IU Cancer Center Combined Seminar from 4 p.m. to 5 p.m. in room 101, IU Cancer Research Institute. Dr. Gary Stoner, professor and chair of the Division of Environmental Health Sciences, School of Public Health and the director of the Laboratory of Cancer Chemoprevention and Etiology at Ohio State University Comprehensive Cancer Center, will deliver the address.

Dr. Stoner's research is in the field of cancer chemoprevention. Chemoprevention involves the identification of dietary and synthetic chemicals that inhibit the development of cancer in animals and in humans. Dr. Stoner's laboratory has identified several chemicals that inhibit the development of lung, esophageal, oral cavity and colon cancer in animals, and they are currently evaluating their molecular mechanisms of action as

well as their potential inhibitory effects in humans.

If you are interested in participating in the poster session, please submit abstracts electronically to [mlucke@iupui.edu](mailto:mlucke@iupui.edu) by October 20th. Cash awards for best posters by graduate students and by post-doctoral/medical fellows will be evaluated by an external board and presented at the IU Cancer Center combined seminar that afternoon. Individual laboratories may submit multiple abstracts; if space becomes limited each laboratory will be asked to identify representative posters.

For more information about the IU Cancer Center Cancer Research Day or scientific poster session, please contact Maureen Harrington, PhD, at [mharrin@iupui.edu](mailto:mharrin@iupui.edu).

## **Imaging at light speed: IRP**

New to the radiology arsenal is the Brilliance 40 - slice CT scanner. IU Hospital was the first in the nation to obtain the new scanner which is able to

create 95 images per second for each patient, substantially decreasing the amount of time a patient has to spend being scanned

IU and Methodist Hospitals were two of the first in Indianapolis to use digital mammography and R2 ImageChecker CAD systems, and the first in Indiana to provide the new CryoPlasty technology to treat Peripheral Vascular Disease. These are just a few of the cutting edge tools that the diagnostic and interventional radiologists at Indiana Radiology Partners have available.

IRP, a Clarian Health Partner, was formed in July 2003 as a group of sub-specialized radiologists from Indiana University Radiology Associates and the former group of Radiologic Specialists of Indiana.

This past April, IRP selected Keith Keplinger as executive director. Before coming to Indiana Radiology Partners, Keplinger was business manager for University Radiologists, Inc. and the administrative associate for the department of radiology at the Ohio State University Medical Center in Columbus, Ohio. Keplinger brings over 25 years of professional health care, research administrative and academic experience in both the private and academic settings.

IRP is one of the largest academic based private radiology practices in the nation with over 70 board-certified physicians. The physicians provide a high-level of expertise, knowledge and diversified clinical skills in numerous areas of radiology specialization including abdominal, chest, emergency, general diagnostic, interventional, mammography, musculoskeletal, neuroradiology/neuro interventional, nuclear medicine, pediatric and pediatric interventional.

The majority of IRP physicians are members of the IU Department of Radiology and serve as faculty at IUSM. They staff the diagnostic radiology residency programs at IUSM with over 60 residency positions. The fellowship program includes more than 25 positions in the major

radiological subspecialties.

IRP provides radiology leadership and clinical interpretation services for IU, Methodist and Riley hospitals, as well as Roudebush VA Medical Center, Wishard Hospital, Johnson Memorial Hospital, Methodist Medical Plazas, National Institute for Fitness & Sports, Spring Mill Medical Center, Clarian West Medical Center (in 2004) and Clarian North Medical Center (in 2005).

For additional information about Indiana Radiology Partners, visit [www.indianaradiology.org](http://www.indianaradiology.org), call 475-4565 or email at [info@indianaradiology.org](mailto:info@indianaradiology.org).

## **Irwin Award application now available**

The Glenn W. Irwin Jr. Experience Excellence Award nomination form is available at [www.jaguars.iupui.edu/frames/home/irwinform.html](http://www.jaguars.iupui.edu/frames/home/irwinform.html). These awards recognize faculty and staff members for service "above and beyond the call of duty." Service for the benefit of the University as a whole or for any of its affiliated units which is non-reimbursed and is not specifically job-related will be recognized at the IUPUI Chancellor's Employee Recognition Convocation on Oct. 20.

Any full-time IUPUI faculty or staff member who has worked for the University a minimum of 12 months may be nominated by the **Monday, Oct. 11** deadline.

[BACK TO TOP](#)

## **This week on *Sound Medicine***

Tune in at 4 p.m. Sunday, Oct. 10, to *Sound Medicine*, the weekly radio program co-produced by IUSM and WFYI Public Radio (90.1 FM) in Indianapolis. The program is hosted by Barb Lewis. Co-hosts this week are Kathy Miller, MD, David Crabb, MD, and Stephen Bogdewic, PhD.

Guests include David Flockhart, MD, PhD, who will discuss the recent announcement that the arthritis medication Vioxx was being discontinued. Dr. Flockhart, who is a professor of medicine, medical genetics and pharmacology, and chief of the Division of Clinical Pharmacology at IUSM, will discuss alternative medications for patients.

Transplant recipient Brian Eckstein and his kidney donor LeeAnn will chronicle his journey to find a kidney donor and the life-saving decision made by his donor.

David McSwane, HSD, director of undergraduate programs at the School of Public and Environmental Affairs and associate professor of public and environmental affairs at IUPUI and adjunct associate professor of public health at IUSM, will discuss one of the most common preventable pediatric health problems in the United States today...lead poisoning.

Archived editions of *Sound Medicine*, as well as other helpful health information, can be found at [soundmedicine.iu.edu/](http://soundmedicine.iu.edu/).

## Submissions to Scope

*Scope* wants your news items.

The deadline for submission is 8:30 a.m. on Fridays. *Scope* is published electronically and sent to faculty, staff, students, and residents.

There are three easy ways to submit story ideas or information to *Scope*:

- e-mail the information to [mhardin@iupui.edu](mailto:mhardin@iupui.edu)
- mail the information to Mary Hardin, Z-7, Ste. 306, IUPUI
- paste your plain text message into *Scope* Web form on the IUSM faculty & staff page: <http://medicine.iu.edu/faculty>

Contributions submitted by e-mail should be forwarded in 12 point, plain text format.

In the interest of accuracy, please do NOT use:

- acronyms
- abbreviations
- campus building codes (use full, proper name of building and include the room number)
- Dr. as a preface before names (designate MD or PhD)

To keep the electronic version of *Scope* as streamlined as possible, only seminars and lectures of general or multidisciplinary interest will be included.
