Beering Lecture postponed

The 2004 Stephen C. Beering Lecture, originally scheduled for Oct. 20, has been postponed and the new date will be announced later.

Stanley Korsmeyer, MD, the 2004 Beering Award recipient, is the Sidney Farber Professor of Pathology and professor of medicine at the Dana-Farber Cancer Institute. A

Howard Hughes Medical Institute investigator at Harvard Medical School, he is best known for his pioneering work on the regulation of apoptosis, also known as programmed cell death.

He has identified the key genetic mechanisms that govern cell death and survival and defined the role of cell death in the pathogenesis of human diseases, including lymphomas and other cancers.

Students host health fair, lecture series

Awareness and education can go a long way to prevent many health-care problems and that is the message IUSM students want to convey to inner-city residents needing medical attention.

Under the supervision of IU physicians, the students are organizing a health fair at the Westside Community Health Center from 9:30 a.m. to 2 p.m., Saturday, Oct. 23. The event coincides with National Primary Care Week (Oct. 17-23), which advocates the importance of health care and brings health professionals together to serve those with limited or no access to care.

This year's event, which is organized by the Internal Medicine Student Interest Group, includes immunizations for adults, information on pediatric immunizations, and blood pressure, diabetes and cholesterol checks. Also, information about colorectal cancer, prostate health, osteoporosis, smoking cessation, breast cancer, poison control, consumer safety and nutrition will be available.

The Indianapolis medical students will be joined by their counterparts at the IU schools of nursing, dentistry, health and rehabilitation sciences and social work.

During National Primary Care Week, the students will sponsor a daily lecture series, noon to 1 p.m., at Wishard Memorial Hospital, room T2008B:

Oct. 18 — Health Professions and Workforce Needs, James R. Springer, MD, Indiana Area Health Education Centers Program

Oct. 19 — Serving the Medically Underserved, Louis Winterheimer, MD, Raphael

Community Health Center

Oct. 20 — Health Care Programs for the Medical Indigent, Donna Olsen, Indiana Parenting Resource Network

Oct. 21 — Indiana's Legislative Perspective, State Sen. Vi Simpson, Senate Health and Provider Services Committee

Oct. 22 — Indiana Chronic Disease Management Programs, Gregory Wilson, MD, commissioner, Indiana State Department of Health. *This session will be held in Wishard Hospital's first floor conference room.*

Former tobacco industry researcher to speak – today

The Tobacco Free IUPUI Coalition and Smokefree Indiana present "Inside the Dark Side at Philip Morris" at 12:30 p.m. Monday, Oct. 11, in the Ruth Lilly Auditorium in University Library, room 0130.

Victor DeNoble, a former Philip Morris researcher, will share his experiences developing a safer cigarette for Philip Morris and testifying to Congress about what the tobacco industry knew about the addictive nature of nicotine and what they did to cover it up.

This event is free and open to the public. The Tobacco Free IUPUI Coalition can be contacted at tobfree@iupui.edu.

The Tobacco Free IUPUI Coalition is sponsored by the IUSM Department of Public Health and Smokefree Indiana with funding from the CDC.

OHRP leaders to discuss human subject research at IUPUI

Bernard Schwetz, DVM, PhD, the new director of the Office of Human Research Protection and George Pospisil of the Division of Education and Development, OHRP, will speak to clinical researchers and their support staff at IUPUI from 2:30 p.m. to 4 p.m. Tuesday, Oct. 19. The presentations will be in the Riley Outpatient Clinic auditorium.

Dr. Schwetz's presentation is entitled "The federal perspective on the research enterprise: an update on the federal perspective on research involving human subjects outlining key issues of concern to OHRP and investigators."

"Perceived obstacles to research: IRB oversight puts some restrictions on research but not all of the restrictions you think" will be discussed by Pospisil.

For additional information, contact Pam DeWeese, administrative director, Clinical Trials Program, 278-2865, or pdeweese@iupui.edu.

Dr. Schwetz was appointed in April 2004 as the director of the Office for Human Research Protections in the U.S. Department of Health and Human Services. OHRP leads the department's efforts to ensure the responsible conduct of research involving human subjects. The office monitors programs at more than 10,000 HHS-funded universities, hospitals and other medical and behavioral research institutions in the United States and abroad. Prior to his appointment, Dr. Schwetz had served as OHRP's acting director since February 2003.

Pospisil works in the Education Division of OHRP. He has served the Department of Health and Human Services for 27 years in various capacities in the National Institute of Mental Health, the National Institute on Drug Abuse and the National Institute of Neurological Disorders and Stroke. Immediately prior to coming to OHRP, he was the policy analyst for the NINDS Clinical Trials Group where he joined with four other institutes to create the web-based "Human Subjects Protection Education Program" for the use of NIH grantees.

Abstracts needed for Cancer Research Day

Indiana University Cancer Center's second annual Cancer Research Day will be from 10 a.m. to 5 p.m. Wednesday, Nov. 3.

A scientific poster session, town hall meeting and keynote address are among the day's scheduled events.

Abstracts are now being accepted for the poster session. The scientific poster session aims to increase understanding and awareness of IU Cancer Center research and encourage collaboration among students, fellows and faculty conducting cancer research. The session will be held in the VanNuys Medical Sciences Building Atrium from 10 a.m. to 3 p.m., with presenters in attendance from 11 a.m. to 1 p.m.

A town hall meeting will be held in room 101 of the IU Cancer Research Institute from 2:30 p.m. to 3:30 p.m. The meeting will provide an overview of the IU Cancer Center as well as an open forum for offering feedback to senior leaders and discussing opportunities for involvement and collaboration. All IUSM, IU School of Nursing and IUPUI School of Science faculty are encouraged to attend.

Cancer Research Day will conclude with a keynote address at the regularly scheduled IU Cancer Center Combined Seminar from 4 p.m. to 5 p.m. in room 101, IU Cancer Research Institute. Dr. Gary Stoner, professor and chair of the Division of Environmental Health Sciences, School of Public Health and the director of the Laboratory of Cancer Chemoprevention and Etiology at Ohio State University Comprehensive Cancer Center, will deliver the address.

Dr. Stoner's research is in the field of cancer chemoprevention. Chemoprevention involves the identification of dietary and synthetic chemicals that inhibit the development of cancer in animals and in humans. Dr. Stoner's laboratory has identified several chemicals that inhibit the development of lung, esophageal, oral cavity and colon cancer in animals, and they are currently evaluating their molecular mechanisms of action as well as their potential inhibitory effects in humans.

If you are interested in participating in the poster session, please submit abstracts

electronically to mlucke@iupui.edu by **Wednesday, Oct. 20**. Cash awards for best posters by graduate students and by post-doctoral/medical fellows will be evaluated by an external board and presented at the IU Cancer Center combined seminar that afternoon. Individual laboratories may submit multiple abstracts; if space becomes limited each laboratory will be asked to identify representative posters.

For more information about the IU Cancer Center Cancer Research Day or scientific poster session, please contact Maureen Harrington, PhD, at mharrin@iupui.edu.

Give until it hurts: Annual IU vs. Purdue Blood Donor Challenge

The battle for blood is on: the 8th annual IU vs. Purdue Blood Donor Challenge began last week and continues through Nov. 12.

To help win this friendly competition, donate blood at any of the Indiana Blood Center or American Red Cross Blood Center locations and help save lives. The university with the most blood donations will be honored at the Old Oaken Bucket football game at Purdue on Nov. 20. Last year, Purdue won the contest, and a record number of 5,021 units of blood were donated. Purdue leads the series 5-2.

The Blood Donor Challenge is sponsored by the Indiana Blood Center, American Red Cross, IU Alumni Association and Purdue Alumni Association.

Several opportunities to donate blood are available on the IUPUI Campus:

- Thursday, Oct. 14, 11:00 a.m. - 3:00 p.m., Van Nuys Medical Science Building Foyer, 635 Barnhill Drive - sponsored by the IU School of Medicine 3rd Year Medical Class
- Friday, Oct. 22, 10:00 a.m. - 2:00 p.m., University College Building, Room 115, 815 W. Michigan St. - Sponsored by the IUPUI Honors Program
- Monday, Oct. 25, 10:00 a.m. - 2:00 p.m., Dental School, 1121 W. Michigan St. - Sponsored by the IU School of Dentistry
- Monday, Oct. 25, 3:30-7:00 p.m., Bloodmobile, service drive beneath BS/ES Building overhead walkway, 801 West Michigan St. - Sponsored by the IU Alumni

Club of Indianapolis

- Tuesday, Nov. 2, 10:00 a.m. - 2:00 p.m., Inlow Hall Atrium, 530 W. New York St. - Sponsored by IU School of Law-Indianapolis

Central Indiana Blood Center locations in the Indianapolis area include:

- Downtown: 3450 N. Meridian St., Indianapolis
- Carmel: The Centre, 1414 S. Rangeline Rd.
- East: George Thomas Plaza, 1024 N. Shadeland Ave.
- Fishers: Marsh Plaza, 116th & Allisonville Rd.
- South: Greenwood Corner, 8725 South U.S. 31
- West: Eagle Highlands Business Ctr., 6620 Parkdale Pl, Ste. J
- Avon: 7655 US Highway 36 East

For more information, contact Sharon Holland at 274-4555, or shollan@iupui.edu.

Art and medicine fused in glass

The works of glass artist Jeff Rothenberg, MD, MS, medical director of the Coleman Center for Women at IU, and his wife, painter Joani Rothenberg, will be on display at the Jewish Community Center Arts Lobby Oct. 20-Nov. 15. An opening reception for the art exhibition is planned for 6 p.m. to 7 p.m. Wednesday, Oct. 20.

The exhibit is titled “Coruscation: A Sudden Flash or Play of Light; Glitter or Gleam in Flashes Works in Glass and Paintings.”

The Jewish Community Center, 6701 Hoover Road, Indianapolis, is open seven days a week.

[BACK TO TOP](#)

Artists, IUSM scientists collaborate for “Research Triangles”

A new exhibit at Harrison Center for the Arts features works by artists in collaboration

with IUSM scientists.

The idea for “Research Triangles: Science and Art Mix it Up!” began when IUSM researcher Matthew Aalsma, PhD, created graphs for a presentation on child psychology that his artist friend, Kyle Ragsdale, found less than aesthetically pleasing.

The resulting team effort was the inspiration for bringing together artists and scientists to create an art exhibit that features medical research. Other IUSM researchers involved with the project include James Lemons, MD, Ora Pescovitz, MD, Donald Orr, MD, Stephen Downs, MD, and Gilbert Liu, MD.

The exhibit at 1505 N. Delaware Street will be open through Oct. 31. Exhibit hours are 9 a.m. to 5 p.m. Monday through Friday. For more information call 396-3886.

IUPUI United Way Campaign - now thru Oct. 29

Your United Way gifts stay in your community – Boone, Hancock, Hamilton, Hendricks, Marion and Morgan counties – improving lives each day.

Gifts to the Community Solutions Fund (an unrestricted gift) supports these community priorities:

- Successful kids
- Strong families and neighborhoods
- Healthy, independent people

Pledges can be made online at www.iupui.edu/~uwaycamp. Contact Mary Kate Myers at myersmk@iupui.edu with questions.

IUSM to pilot expanded Frontiers in Physiology program

Two Arsenal Technical High School science teachers are reversing roles – they will be the students and IUSM faculty will be their teachers.

The teachers, Rachel Pearce and William White will participate in a year-long Frontiers in Physiology Professional Development Fellowship sponsored by the American Physiological Society.

The fellowship is made possible with a \$277,350 Science Education Partnership Awards grant. Indianapolis is one of two sites in the nation chosen to pilot the year-long program. IU faculty, who have a long history of participating as American Physiological Society “Frontiers in Physiology” teachers, are the mentors. The other pilot program site is San Antonio, Texas.

Leading the Indianapolis team is Subah Packer, PhD, associate professor of cellular and integrative physiology. Assisting with the program are David Suzuki, PhD, professor of ophthalmology and of anatomy and cell biology; Edward Mannix, PhD, associate scientist in medicine and associate scientist and associate professor of cellular and integrative physiology; Sandi Mahl, Cortland Elementary School, Seymour, Ind., and a 1996 Research Teacher; and Linda Dearth-Monroe, Warren Central High School, Indianapolis, and a 2003 Research Teacher.

As a testament to the success of the 15-year-old Frontiers in Physiology program, the NIH’s National Center for Research Resources awarded the APS grant to allow the existing program to be developed into a locally-based, self-sustaining one that will allow the teachers and their students to be involved long after the summer ends.

For additional information about the APS education program, see www.the-aps.org/education.htm or medicine.indiana.edu/news_releases/viewRelease.php4?art=208.

Fee courtesy, other benefits explained – Oct. 18

Considering taking a class? Would you like to finish that degree you began years ago? Thinking about a job enhancement that would require additional education? Do you have

dependent children who want to attend college?

If any of those questions apply, plan to attend “Educational Opportunities for IUPUI Staff and Faculty Brown Bag Lunch” from noon to 1 p.m., Monday, Oct. 18, in University Library, room 1126. Learn about the employee fee courtesy, a benefit for full-time IUPUI employees.

Register in advance at www.opd.iupui.edu/PCPD/, or call 278-6221. For more information call 274-5467.

The session is sponsored by IUPUI Partners in Career & Professional Development and the IUPUI Enrollment Center.

Honors

The National Highway Traffic Safety Administration has awarded \$350,000 to the **Automotive Safety Program** for Children at Riley Hospital to establish a National Center for Safe Transportation of Children with Special Health Care Needs. This is the first time the NHTSA has designated and funded a center for this purpose. Marilyn Bull, MD, founded the Automotive Safety Program, which is directed by Shayne Merritt

Virginia Caine, MD, associate professor of medicine and director of the Marion County Health Department, was awarded the Doris Merritt Services to Nursing Award from the IU School of Nursing. She was honored for her support of the nursing school and work to prevent and control sexually transmitted diseases in Marion County.

Rose Fife, MD, associate dean for research and director of the IU Center of Excellence for Women’s Health, has been awarded the Victoria Champion Boundary Spanning Award from the IU School of Nursing. She was recognized for her work in promoting women’s health locally and internationally.

Cynthia Myers, MD, was awarded a prize for best scientific abstract at the Midwest Pediatric Cardiology Society 28th Annual Meeting. The meeting included many top researchers who convened at the Cleveland Clinic Foundation in September 2004. Dr. Myers’ work has been performed under the guidance of Mark Rodefeld, MD, assistant

professor in the IU Section of Cardiothoracic Surgery. As a result of her efforts, Dr. Myers is lead author of a study which has been accepted for presentation at The Society of Thoracic Surgeons Annual Meeting in January.

Robert Patterson, MS 4, was selected as a winner of the 2004-2005 Journal of the National Medical Association Award for Medical Education. The award recognizes journalistic excellence as well as academic achievement and leadership.

This week on *Sound Medicine*

Tune in at 4 p.m. Sunday, Oct. 17, to *Sound Medicine*, the weekly radio program co-produced by IUSM and WFYI Public Radio (90.1 FM) in Indianapolis. The week's program will provide a special look at the HIV-AIDS epidemic.

AIDS Update

Ambassador Randall Tobias, coordinator for International HIV/AIDS Assistance, joins Steve Bogdewic, MD, and Barbara Lewis to discuss the HIV/AIDS crisis throughout the world, and the U.S. involvement in HIV and AIDS relief.

Greg Behrman, author of the new book, "The Invisible People: How the U.S. Has Slept Through the Global AIDS Pandemic, the Greatest Humanitarian Catastrophe of Our Time," joins David Crabb, MD, and Barbara Lewis to talk about the effects of HIV and AIDS on the global front.

Eldoret Debriefing/IUSM AIDS Conference

David Crabb, MD, talks with Barbara Lewis about his summer vacation spent in Eldoret, Kenya, and the effects of HIV/AIDS epidemic ravaging the area. The two also discuss the IUSM Global HIV/AIDS Conference to be held Oct. 31.

Archived editions of *Sound Medicine*, as well as other helpful health information, can be found at soundmedicine.iu.edu/.

Online IUSM calendars

A comprehensive listing on IUSM seminars, lectures and Grand Rounds can be accessed at www.medlib.iupui.edu/calendar. To place items on the Scientific Calendar, please forward them to Iona Sewell at imsewell@iupui.edu.

A Special Events Calendar for presentations, symposiums, conferences and other activities at IUSM can be found on the School's Web page at www.medicine.iu.edu. The calendar also can be accessed directly at webdb.iu.edu/iusm/scripts/calendar/instr.cfm.

[BACK TO TOP](#)

Submissions to Scope

Scope wants your news items.

The deadline for submission is 8:30 a.m. on Fridays. *Scope* is published electronically and sent to faculty, staff, students, and residents.

There are three easy ways to submit story ideas or information to *Scope*:

- e-mail the information to mhardin@iupui.edu
- mail the information to Mary Hardin, Z-7, Ste. 306, IUPUI
- paste your plain text message into *Scope* Web form on the IUSM faculty & staff page: <http://medicine.iu.edu/faculty>

Contributions submitted by e-mail should be forwarded in 12 point, plain text format.

In the interest of accuracy, please do NOT use:

- acronyms
- abbreviations
- campus building codes (use full, proper name of building and include the room number)
- Dr. as a preface before names (designate MD or PhD)

To keep the electronic version of *Scope* as streamlined as possible, only seminars and

lectures of general or multidisciplinary interest will be included.
