Photographic exhibit on IU-Kenya Partnership at IUSM Libraries

The IU-Kenya Partnership currently has a photographic depiction of IU's initiatives in Kenya on display in the IUSM Libraries (www.medlib.iupui.edu/). The display highlights the collaborative efforts of faculty, residents and students participating in the program in Kenya and the United States.

The partnership was initially established in 1989 to foster and develop future leaders in health care for both the U.S. and Kenya. As the magnitude of the HIV/AIDS pandemic grew over the last two decades, it became apparent that the partnership would have to respond to this health-care crisis.

In 2000, IUSM's Joe Mamlin, MD, asked for help in treating one Kenyan medical student afflicted with HIV. Now, six years later, the partnership through its AMPATH (Academic Model for Prevention and Treatment of HIV/AIDS) program is following over 27,000 HIV infected patients and adding over 1,100 new patients every month. Additionally, the program has established income and food security initiatives as well as creating an orphanage and vulnerable children assistance program in an effort to combat all aspects of this disease.

The display will remain through the summer and is located immediately inside the entrance to the Ruth Lilly Medical Library. For more information, contact Rebecca McTague Atkins at rmatkins@iupui.edu, or medical librarian, Carole Gall, at 274-1411, cfgall@iupui.edu.

New ANGEL online

On June 4th, IUSM installed the new version of ANGEL. There is a pdf file listed under "Help" on the IUSM ANGEL front page that provides a quick index to find things in 7.1 if you were a user of the version 6.3. In addition there's a compact description of the new features, and new faculty and student quickstart guides in the documentation folder under "Help." The IUSM ANGEL system is at <https://daly.medicine.iu.edu>.

Faculty can visit the various courses on ANGEL at <https://daly.medicine.iu.edu/med> to become familiar with the new organization and, at the same time, check to see if the changes have created problems with course content. Faculty with questions or those who would like to schedule an overview of the new system, send an email to angel@iupui.edu.

Biotechnology Training Program accepting student applications

The IUSM and IU Graduate School offer a Biotechnology Training Program for technician employees to enhance their knowledge base and skills in basic biomedical research.

A 17-credit certificate involving hands-on laboratory and problem-based learning courses is offered on a part-time basis (late afternoons and early evenings). Students who complete the certificate may continue in an MS degree. This academic program is housed in the state-of-the-art Biotechnology Research and Training Center. See www.medicine.iu.edu/%7Egradschl/biotechTraining/index.html for program and contact information. Applications are being accepted through Friday, Aug. 11.

Personalized funding alerts

The "Community of Science" will notify individuals by email each week of new funding opportunities in your research area. There is no charge for IUSM to use this service which is made available through an IUPUI-IU subscription. To set up a profile, including key words for identification of appropriate funding opportunities, go to registration.cos.com/cos/basic.html. If assistance is needed in setting up the profile, contact IUSM librarian, Carole Gall, at 317 274-1411 cfgall@iupui.edu.

AAMC supports increase in medical school enrollment

Citing growing evidence of a national physician shortage, the Association of American Medical Colleges this week recommended that enrollment in U.S. medical schools be increased 30 percent by 2015. This expansion would result in an additional 5,000 new M.D. students annually and should be accomplished by boosting enrollment at existing schools, as well as by creating new allopathic medical schools. reassess its current position.

A copy of the AAMC's revised physician workforce position can be found at: www.aamc.org/workforce.

AAMC issues new guidelines to attract physician-scientists

The nation's medical schools and teaching hospitals must take a leading role to increase the number of U.S. physician-scientists available to follow up on recent scientific advances, according to a new report by the Association of American Medical Colleges. "Promoting Translational and Clinical Science: The Critical Role of Medical Schools and Teaching Hospitals" makes recommendations on how academic medical institutions can attract, nurture, and support more translational and clinical physician-scientists.

To download a free copy of this report, go to www.aamc.org/promotingclinicalscience.

2006 summer seminars for undergraduates interested in a career in medicine

Four seminars featuring speakers knowledgeable about navigating the path to becoming a physician will be offered again this summer. These seminars and panel discussions are intended for college students who are working on our campuses and are interested in a career in medicine.

All seminars will be held in the Van Nuys Medical Science Building, rooms 311 A & B. The series is free and participants are welcome to bring their lunch. Each session begins at noon and ends by 1 p.m. The schedule:

Session 1: Undergraduate Preparation for Medical School

Robert M. Stump, Jr., Director of Admissions

Thursday, July 6, 2006

Session 2: Life as a Medical Student

Medical Student Panel

Tuesday, July 11, 2006

Session 3: Careers in Primary and Specialty Care

Physician Panel

Tuesday, July 18, 2006

Session 4: Financing Medical School

Jose Espada, Director of Student Financial Services

Tuesday, July 25, 2006

The series is sponsored by the School of Medicine Admissions Office. For further information, call 274-3772.

IUSM needs volunteers for Indiana State Fair

IUSM will participate in Indiana University's 12-day presence at the 2006 Indiana State Fair, Aug. 9-21. Sound Medicine will be the focus of one of the tents, the other tents will include information about patient treatments and research in the neurosciences, diabetes, cardiovascular, vascular and cancer specialties. Faculty, staff and students

are highly encouraged to volunteer Thursday, Aug. 10, or Sunday, Aug. 13.

Two-hour shifts are available between 8 a.m. to 11 p.m. T-shirts and admission to the State Fair will be provided. For more information or to volunteer, contact iusm@indiana.edu by Friday, June 30. Please include your name, daytime phone number and preferred time slots.

Volunteers needed for Race2Replace

The Indiana University Cancer Center is coordinating the local volunteer activities for Race2Replace, hosted by the Discovery Channel and the Indianapolis Motor Speedway. The event will be in Indianapolis on Saturday, Aug. 12, and is expected to draw cyclists from across the Midwest to compete for a place on the Discovery Channel Pro Cycling Team.

Nearly 350 volunteers are needed to provide full coverage for the track and make the event a success. Job descriptions include registration, crowd control, race staging and information-area staffing.

The Lance Armstrong Foundation has pledged 20 percent of the event proceeds to the IU cancer program.

Email bsmith@iupui.edu to join the volunteer crew.

This week on Sound Medicine

Tune in at 4 p.m. Sunday, June 25, to Sound Medicine, the weekly radio program co-produced by IUSM and WFYI Public Radio (90.1 FM) in Indianapolis. The program is hosted by Barb Lewis. Co-hosts of this week's program are David Crabb, MD, and Stephen Bogdewic, PhD.

The problems faced by increasing numbers of uninsured Hoosiers will be analyzed by Matt Gutwein, president and CEO of the Health and Hospital Corporation for Marion County.

Anna Dusick, MD, IU professor of clinical pediatrics, will discuss premature births and the challenges these infants face catching up developmentally with full-term infants. Dr. Dusick directs the newborn follow-up program at Riley Hospital.

John Caffaro, Ph.D., a clinical psychologist and family therapist, joins Sound Medicine to discuss violence among siblings. He is the co-author of the book, Sibling Abuse Trauma.

Archived editions of Sound Medicine, as well as other helpful health information, can be found at www.soundmedicine.iu.edu/.

Scope submission guidelines

Scope wants your news items.

The deadline for submission is 8:30 a.m. on Thursdays. *Scope* is published electronically and sent to faculty, staff, students, and residents.

There are three easy ways to submit story ideas or information to *Scope*:

- e-mail the information to mhardin@iupui.edu
- mail the information to Mary Hardin, Z-7, Ste. 306, IUPUI
- fax your information to (317) 278-8722

Contributions submitted by e-mail should be forwarded in 12 point, plain text format.

In the interest of accuracy, please do NOT use:

- acronyms
- abbreviations
- campus building codes (use full, proper name of building and include the room number)
- Dr. as a preface before names (designate MD or PhD)

To keep the electronic version of *Scope* as streamlined as possible, only seminars and lectures of general or multidisciplinary interest will be included.
